# **BRUMIL 840 – Optical LED-Tester for military lens connectors**

The ideally customized Tactical Optical LED-Tester for military lens connectors performs critical tasks for maintaining tactical fiber-optic networks in operations by testing existing cable sets and localizing damages to patch cords, adapting cables etc.

# **Application:**

- · Checking/testing tactical fiber-optic networks or part of it, e.g. cable assemblies with military lens connectors, adapting cables etc.
- Testing of the cable assemblies before and after an operation
- · Ensures success of following mission
- · Limits faulty connections to a minimum
- · Keeps the cable assemblies ready for operation
- · Localizing of a faulty fiber-optic cable to replace or to repair immediately with the Emergency Field Repair Kit (BRUMIL 860) or the Tactical Cable Repair Kit (BRUMIL 880)

## Advantages of Optical LED-Tester

- · Compact and lightweight design
- Simple optical fault locator
- · Locating of unwanted fiber crossing
- Simple one-button operation
- High visibility of the color LED light
- Simple handling
- Reliable construction for harsh environment
- · Easy cleaning with water and isopropyl alcohol
- Additional LED-Tester with any other connector interface available on request

## **Construction:**

- Hard lightweight metal housing IP 54
- · Fully compatible with original lens connector insert
- A1 = red

## **Optional Accessories and Service offered:**

- Textile bag
- · Easy cleaning set
- Training for deployment, repair and cable testing in the field and in the workshop
- Emergency Field Repair Kit (BRUMIL 860) for mechanical splice in the field
- Tactical Cable Repair Kit (BRUMIL 880) for fusion splice in the workshop
- Solution engineering and system design

## **Optical:**

• Testing single or multimode fibers

## Temperature range:

- -20°...+50° C • Operation:
- Storage -20°...+60° C
- Humidity 95%, non condensing

## Power:

- Batteries:
- Battery life time:
- 3x LR03-AAA
- up to 5 hours with standard
  - batteries

#### Dimensions

- HMA compatible LED Tester
- Size I x d: 157 x Ø27mm
- Weight: approx. 160 g

#### **TFOCA** compatible LED Tester

- Size I x d: 170 x Ø38mm
- Weight: approx. 300 g

#### EUROCOM compatible LED Tester

- Size I x d: 185 x Ø58mm
- Weight: approx. 525 g
